---

### Sizes

750 mL × 12 — DVM6025-NV

---

### Product information

Lambrusco Salamino is blended with the high-acid, high-tannin sub-variety Lambrusco di Sorbara to produce a bracing, palate-cleansing style. A higher percentage of Lambrusco di Sorbara and lower residual sugar make this firmer on the pallet than Labrusca Rose'. The wine is vinified using the Charmat method and is kept near freezing in pressurized tanks until bottling.
