**750 mL × 12 — DVM5083-12**

**1 L × 12 — DVM5084-12**

### Product information

Giovanni Busi vinifies 100% sangiovese in temperature-controlled stainless steel using an 8-day maceration. The wine is aged for at least eight months in steel and two months in bottle.

---

### Producer information

Estate owner Giovanni Busi respects the particulars of Rufina's climate, weather and soils. As distinguished from the better-known Classico zone, he is sure that the Rufina terroir produces singular Sangiovese. He should know. His family has owned the property for centuries. A warm, dry climate moderated by cooling breezes coupled with well-drained clay and limestone marl produce ideal conditions for producing age-worthy sangiovese.
