LACRIMA DI MORRO D'ALBA

Amidst the hype surrounding wines from Marche, Enzo Mecella has chosen to ignore fleeting commercial trends and focus on the production of superior wines from old vines of local origin.

Believed to be related to the Aleatico variety, Lacrima di Morro d'Alba is one of the most exciting recent DOC varieties to emerge from Central Italy. The name "*lacrima*" means "tear drop" referring to the drops of juice that run out of the grapes when their thin skin cracks upon ripening fully.
